I.

My dear friends,

Time flies. It's the end of the year. What are your plans for this New Year's Eve? How about 1 ? My office has big windows and a clear view of Taipei 101, and this year my boss agrees to let us use the place to celebrate the coming of the new year. We can watch the fireworks and welcome 2 together. Emma and I will prepare music, food, and drinks. If you would like to contribute to the party, feel free to do so !

The traffic around Taipei 101 is always quite crazy after 1 p.m. on New Year's Eve. In my experience, 3 is the best way to get here though it is crowded. If you want to drive, ride a scooter or motorcycle, you'd better arrive here before noon. However, I'll have to work until 7 or 8 p.m., and you can't enter this building 4 . You'd better find something else to do during the wait.

If you want to join us, please write back before the end of tomorrow. Hope to see you all soon.

Ariane

### Going to the Gym

Going to the gym has been quite popular for the past few years. With more and more people starting to work out for their health, gyms do everything they can to get new members. Please read a gym's flyer below.

#### HEALTH GYM

Are you tired of waiting in line to use a popular exercise machine? Or did you finally get yourself into the gym, but can't find anyone to train with? Well, don't worry. Health Gym, a 24-hour gym, is here to help. We have a large exercise room with lots of the latest equipment, a big swimming pool, two kids' playrooms, and a coffee shop. Here, you can choose to train alone with your trainer or join group classes like dancing to get yourself into the best shape of your life.

Read what our happy members have to say:

I used to spend so much money on a gym membership card that I didn't use. But not at Health Gym. With their excellent trainers and custom-made workout programs, I never miss a workout and I have lost 10 pounds in one month.

Ted

As a mother of three little kids, going to the gym seems like a dream that feels so far away, but Health Gym takes care of all my needs. They have free childcare for members with kids aged 1 to 12, so I can exercise without worry, knowing that my little ones are in safe hands. Health Gym made my dream come true.

#### *Chipmunk vs. Squirrel*

Both the chipmunk and the squirrel are cute animals. People love them for their round eyes and small body. How are they different? Let's check out together.

**Chipmunk**

There are about 25 species of chipmunks reported in the world. Most of them are found in America; only one species is in Asia. Chipmunks are about 16-30 cm long. Their stripes on the back and their shorter tail make them look very different from squirrels. A chipmunk can live up to six years. Chipmunks live on the ground, and they make burrows under it. During winter, chipmunks hibernate in burrows. They can sleep for several days without going out to look for food.

**Squirrel**

There are about 200 species of squirrels, and they can be found almost all over the world. With so many species, squirrels' colors range from brown, gray, to even black. A squirrel is bigger in size. They are around 38-52 cm long. Squirrels don't have any stripes on their coats. Their long bushy tail is the most special mark. Squirrels can live two times as long as chipmunks. They live in trees and are good at climbing. Squirrels don't hibernate. To get through cold winter, they eat a lot and store food during autumn.
